Appendix C ARES Member Contacts

Each card below shows an ARES member's callsign and name, the QR code to add them as a contact, and their public key. To add a member, scan the QR code with the MeshCore app (Menu → Add Contact → Scan QR Code), or copy and paste the public key. Then open the contact and tap the favorite icon so it is never deleted when your contact list fills (Section 13.8). Cards are listed alphabetically by callsign.

Who is listed here

Only Cherokee ARES members are recorded in this appendix, because ARES members are the people given access to the Cherokee ARES private channel (Appendix B).

All other club members may use any of our public-facing channels: Public and #wx4car-cherokee (Section 13.7).
